SUBJECT: 2003 Legislative Matrix

RECOMMENDED ACTION: Receive and File

SUMMARY:

SCAG Government and Public Affairs unveils this month a new, comprehensive legislative matrix format.

Past legislative matrices included only the bills and the constitutional amendments on which the Regional Council had taken a position. Matrices were typically brief in the beginning of the biennial session and grew to 6-10 pages of active and inactive bills by the end. The brevity and specificity of the matrices made them easy to use; they failed, however, to show Regional Council and policy committee members what Government Affairs was internally monitoring.

Using StateNet, the legislative tracking Internet tool, Government Affairs is able to reformat its legislative matrix to include more information on a greater variety of bills. Where possible, Government Affairs has noted CALCOG and League positions under "Client Commentary." Bills with "Monitor" positions are those with either a high profile or a subject matter of interest to SCAG. The Regional Council has not taken a position on these bills.

Bills and constitutional amendments in the new matrix are listed in numerical order, starting with Assembly Bills and then continuing alphabetically with Assembly Constitutional Amendments, Senate Bills, and Senate Constitutional Amendments.

One bill not listed in this month's matrix, which will be added for next month, is federal Senate Bill 458, introduced by Senator Jeff Bingaman (D-New Mexico), creating the Southwest Regional Border Authority. As of this writing on May 21st, S. 458 remains in the Senate Environment and Public Works Committee.

FISCAL IMPACT:

All work related to adopting the recommended staff action is contained within the adopted FY 02/03 budget and adopted 2003 SCAG Legislative Program and does not require the allocation of any additional financial resources.
